Ways a Parent Can Help with **READING**

1 Let your child see you reading! Have magazines and books in your home.	2 Help your child find appropriate word & reading games on the computer. Keep a dictionary on hand. Help your child look up new words they read or hear.	3 Read mysteries with your child and try to figure out the clues together.
4 Movie version coming out? Read the book together first, then talk about which you each liked better.	5 Set aside a time and place for your child to read - like a comfy chair and a reading light in a quiet place	6 Visit your public library regularly. Look for and read together the books that were your favorites when you were a kid.
7 Encourage your child to write - letters, thank you notes, emails, journals, lists, stories about their own trips, events, and daily life	8 Ask your child questions about what he or she is reading, such as: <ul style="list-style-type: none"> - What is the story about? - Who are the important characters in the story? - Where does the story take place? - Why do you think the character made that choice? - Why did that happen? - How did you know about...? - Would you recommend this book to your friends? 	
9 Ask your child to draw a comic strip about what happens in the story. Provide word searches, crossword and other word games and puzzles, or help your child make his/her own		

Share with your child about what you're reading... and encourage your child to do the same
